

# Make a Sliding Thermometer

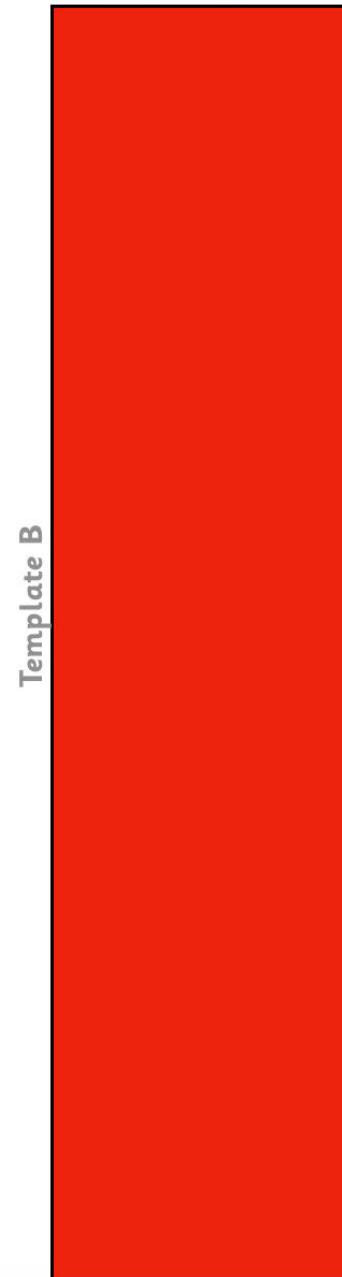

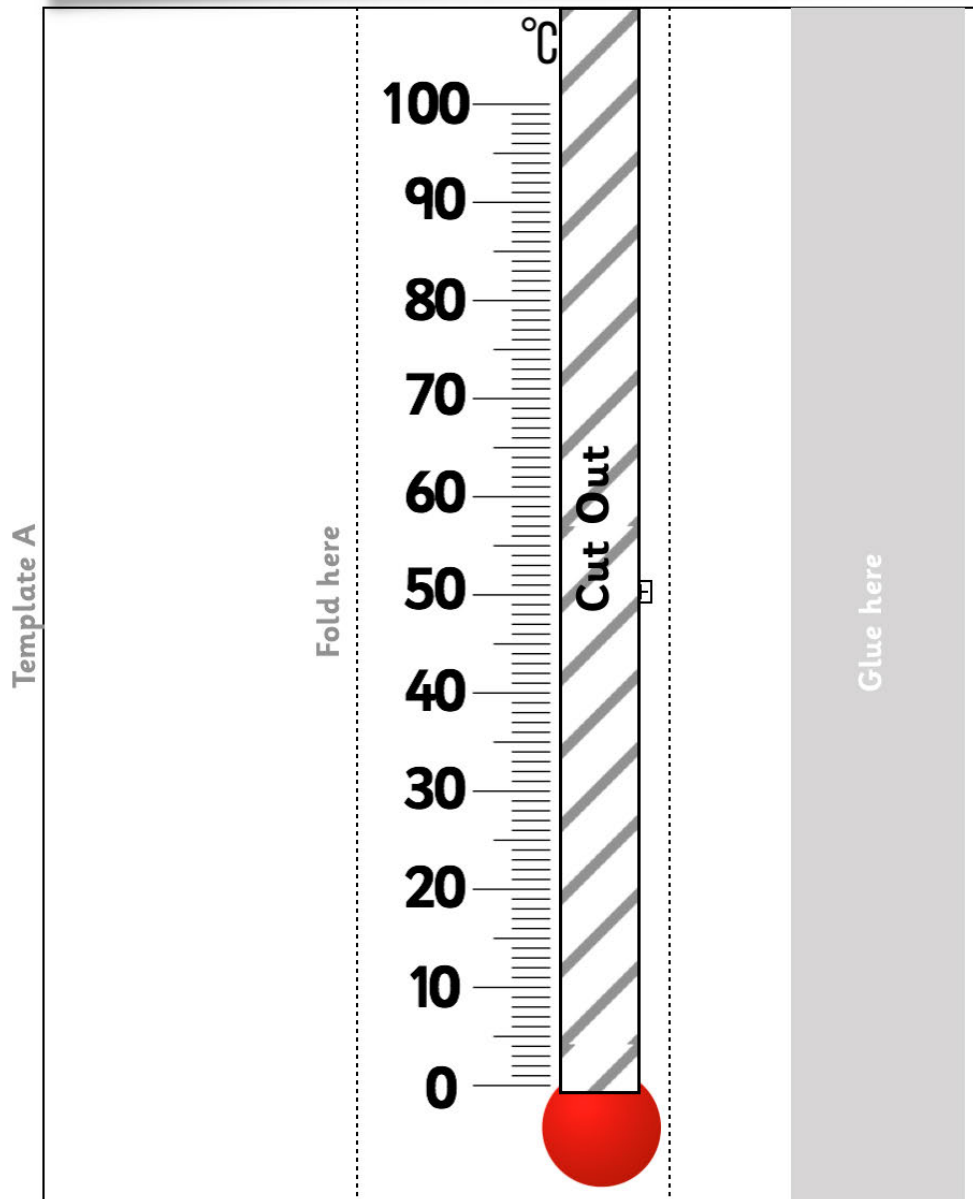

## Template 2A

- Start by cutting out Templates A and B.
- Fold along the dotted lines to make a sleeve.
- Cut out the section in the middle of Template A. Make sure you don't cut the folded pieces too.
- Glue the sleeve together.
- Insert Template B into the sleeve to make the moving red line on the thermometer.

# Make a Sliding Thermometer

## Template 2B

- Start by cutting out Templates A and B.
- Fold along the dotted lines to make a sleeve.
- Cut out the section in the middle of Template A. Make sure you don't cut the folded pieces too.
- Glue the sleeve together.
- Insert Template B into the sleeve to make the moving red line on the thermometer.
